Ok. Let Stacy get her subsamples so that I don't hold her up.

Hi Nichole,

Just heard from Avi at WaterGen- he has changed plans and will be here next week instead. So I'll just hold onto the samples until you arrive here at AWBERC? Can either let Stacy grab hers and put the rest in a walk-in or wait until you get here for subsampling.

Thanks,

Michael

**Subject:** T&E location

The facility is located on Metropolitan Sewer District grounds at 1600 Gest Street. When you arrive, stop at the guard shack and tell them you are going to EPA; they may ask for your name and license plate number. The EPA building is the brown silo-looking thing ahead and on the right. The entrance is on the side of the silo-looking part and security needs to let you in- if no one is at the desk just give me a call and I'll come find you.

Thanks!

Michael
